For this event DE will be limited to those with previous DE experience.

Event Registration

This year all event registration will be handled through motorsportreg.com. Many clubs around the country are using this service for registration for all kinds of events. Switching from our own registration system to the one provided by motorsportreg.com should make things easier for both those attending our events as well as the event organizers.

Registration for the Blackhawk events in May, June and July will open on March 1st. Registration details for the August event at Blackhawk are not complete at this time. More information will be provided at a later date. Registration for Oktoberfest will open on May 1st.

Between now and when registration opens you need to do one of two things. If you don't already have an account at motorsportreg.com you will need to create one. If you already have an account all you need to do is add the Badger Bimmers as one of your club memberships.

Motorsportreg.com does offer credit card payment services but at the present time we will still only allow payment by check. At the end of the registration process for an event a confirmation page will be displayed that contains information about where your check must be sent along with some waiver information. You must print the confirmation page, sign and date it and then send it in along with your check.

If you have questions about the process of using motorsportreg.com please send an email to Mike Clemens at mclemens@execpc.com. The next 2 pages detail the steps for creating a motorsportreg.com account or for updating your current account to include the Badger Bimmers club.
